

# The Ross Mackellar Award in Electrical Engineering

This Award has been established to recognise and encourage high achieving students in electrical engineering. The award, valued of **\$1000**, will be given to the student that has shown the most improvement over the first five semesters of their studies in electrical engineering, telecommunications, or photonics.

Students currently enrolled in a BE (Elec), BE (Tele), BE (Photonics), or combined degree, and who have just completed their fifth semester, are eligible to apply. See further conditions below\*.

## Applications:

A full curriculum vitae and single-page written report, outlining the reasons for their improvement, and how the award will aid in their future studies and their further improvement, should be submitted via the web site below.

Each applicant will be assessed on the basis of academic merit, aptitude and commitment to their program of study, and personal qualities. The applicant need not be the best student overall, but must demonstrate that they have improved their grades substantially over the course of their studies.

[http://www.eet.unsw.edu.au/scholarship/ross\\_mackellar\\_application.php](http://www.eet.unsw.edu.au/scholarship/ross_mackellar_application.php)

Applications open 12<sup>th</sup> October 2009, and close 16<sup>th</sup> November 2009.

\* Applicants must be Australian citizens or have Australian Permanent Residency and must have a WAM on or above 65. The award recipient must maintain enrolment in a normal full-time load of at least 24 Units of Credit per semester. The award may be held concurrently with other scholarship or bursaries, subject to the conditions of the other scholarships or bursary. The award holder will be required to submit a written report to the Faculty of Engineering, via the School of EE&T, by June 30 2010, outlining the benefits gained while in receipt of the award.
